When a particular species is destroyed by a severe disturbance so that a link in the network is broken, a diverse community will be able to survive and reorganize itself... "We should be evolving into a new age of business with a worldview that maintains one simple proposition—that all of nature: humans, animals, earth, are interconnected and interdependent."

"Our interconnectedness on the planet is the dominating truth of the 21st century. One stark result is that the world's poor live, and especially die, with the awareness that the United States is doing little to mobilize the weapons of mass salvation that could offer them survival, dignity and eventually the escape from poverty."

-- Jeffrey Sachs

**"All things are connected like the blood that unites us,  
We did not weave the web of life. We are merely a strand  
in it. Whatever we do to the web, we do to ourselves."**
